Re: Protus IP Solutions Inc. Subpoena/Deposition

Mr. Walkup:

I am writing to you in response to a subpoena for documents and deposition notice that I was served with yesterday.

I am at a loss as to what I have to do with this matter as I am not a party to the case. I have no documentation that would be responsive to the subpoena or testimony to give in a deposition regarding the matter.

The only knowledge I have about any party in the case are the junk faxes transmitted by Protus to Johnson Space Center and a request I made to a Mrs. Wymore that Protus cease doing so. Information that Protus is a junk fax blaster and Wymore is a Protus attorney is available on the internet i.e. junkfax.org.

If you would have had the decency to discuss this with me prior to having me served you would have found out I have prior obligations that I cannot change especially for something I have nothing to with.

Consequently, I object to the subpoena and deposition in its entirety.

Please do not involve me in this matter any further or I will be forced to take the time and expense to officially notify the court that I know nothing about and have nothing to do with the matter

Thank you,
